

Break the Hold of Infirmary

If you think that I took you “out of the box” in *Disarming Deadly Doctrines*, you’d best tighten your seat belt, because this is outside even my own spiritual comfort zone!

The process I’m about to lead you through has to do with curses, which sounds alarms in my head and brings many questions to mind. It’s not that I don’t believe curses are real – the Old Testament makes it clear they were very real, indeed. But even in the Old Testament, God said we weren’t going to do the “cursed to the third and fourth generation” routine anymore (Deut 5:9,10 and Ez 18:20). Then, in the New Testament, Jesus took the sour wine to His lips as His last act on the cross, breaking the “father tastes sour grapes and the children’s teeth are set on edge” rule (Jer 31:29,30). Those scriptures show that God dealt with what some people call generational curses. There are Christians today that spend weeks trying to go back into the past to see what they can repent of (that their ancestors did wrong) to break generational curses, when they’ve already been broken. Note that the original “third and fourth generation curses” were against idolators worshiping graven images – not against just normal, ordinary sinners. So much of the ado is for no reason, anyway.

Then what sort of curses are we talking about here? Well, if you check out Deuteronomy 28, the curses are a result of disobedience. Out of 64 verses, only 15 pertain to blessings. The rest are some pretty awful negative things the Lord calls curses, and He goes into great detail. You’ll notice that not once in the blessings did God say we’d get sick but He’s use it to teach us something. All sickness falls under the curses. One pastor I know of asked the Lord why He spent only 15 verses talking to us about blessings and 49 talking about curses, and the Lord responded that it was because we have no problem recognizing blessings, but so often we try to justify curses as coming from Him, when they are a result of the Fall. They come from our enemy

But Jesus fulfilled the Law and made us righteous, so we no longer qualify for the curses of Deuteronomy 28, only the blessings. We are so fortunate to live as New Testament believers! We are redeemed from the Old Testament curses, but qualified for the blessings, all thanks to Jesus!

So why am I bringing up the breaking of curses if they’re Old Testament? Because when I read the document below aloud, a very painful issue in my ankle was instantly healed. So how could I not offer this to you as one of the many ways you can be healed – another opportunity Jesus will jump at to bless you?

I’ve come to the conclusion that, like every other blessing Jesus bought for us through His Passion – just like forgiveness/eternal life – we must recognize and accept that Jesus broke the back of every curse Adam and Eve brought down on us. “By grace though faith,” it’s given by His grace, then received through our faith. We must receive it. We can’t just stare at it and expect it to work. He bought the gift and sent it to us. You might say we just have to “open the box.”

Because of my instant healing (and perhaps other healings that were not visible/ Noticeable yet at the time), I've decided to go out on a limb and share this document with you. It can't hurt. There's nothing in it that contradicts the good things God wants for you. And do this right away. Read it ALOUD (necessary because it's our words, not our thoughts, that make things happen in the earth), take it to heart, and accept God's grace for your body.
